February 2021

Lent is one of those seasons that we either dread because of its apparent emphasis on self-denial and self-imposed hardship or one that we embrace with enthusiasm because it is a real opportunity to re-assess our lives and take steps to deepen our relationship with God

Israel must work with Palestinian authorities to make Covid vaccines accessible to Palestinians in West Bank and Gaza. The Catholic Bishops of the Holy Land Co-ordination, an international annual pilgrimage to the Holy Land, have released a final communique having met remotely. The Bishops engaged in a number of online sessions to examine the realities and challenges facing not just the Christians but all the people of the region. At a time of political change they have called on Israeli and Palestinian leaderships to recommit to direct negotiations to achieve peace. They implore the governments and political leaders of their home countries to work 'actively' towards this end by "supporting dialogue between all sides, upholding international law, and reaffirming the plurality of Jerusalem, given its unique significance for Jews, Christians and Muslims."
