## Climate Justice Coalition Newsletter | Winter 2024

---

**We Make Tomorrow,  
#AndStillWeRise, Insure our  
Future and more!**

**Welcome to the first Climate Justice  
Coalition newsletter of 2024!**

We ended 2023 with a powerful show of strength for our movement. As world leaders gathered at COP28, we took to the streets across the world for a Global Day of Action for Climate Justice. [Take a look back at some of the highlights actions across Britain and Ireland.](#)

But, as we settle into 2024, we must keep up the momentum in the fight for climate justice. And there's plenty for you to get involved with already...

**We Make Tomorrow: one week  
to go!**

The climate crisis will define politics and economics throughout this century, impacting working people in every way. We Make Tomorrow is a one day conference for building workers' power to both halt industrial pollution and win a just transition.

We'll bring together workers in key sectors with trade union officials, climate justice activists and scientists to explore what climate change means for us and what we should do about it.

[Take a look through the list of speakers joining us on the day, the programme and book your spot from the following ticket options:](#)

## Winning a Fossil-Free Future

Mark your calendars for 22 January for an important event in the fight against climate change. Global Justice Now is unveiling a new UK-wide campaign for a Fossil Fuel Treaty.

The recent UN climate conference acknowledged the necessity of moving away from fossil fuels, but the final text was riddled with loopholes.

This initiative calls for a global exit plan from fossil fuels that is both rapid and fair.

**The event will feature discussions on the international battle against fossil fuels, the intricacies of the treaty, and ways you can engage from any part of the UK.**

## Global week of action to end fossil fuels

The Insure Our Future network is gearing up for the first ever Global Week of Action targeting the insurance industry for their role in the climate crisis.

People from around the world, from many countries, will join together from 26 February to 3 March.

Why insurance? Insurance is the Achilles heel of the fossil fuel industry - without insurance, most new projects cannot go ahead and existing ones must close.

**With your help, we will hold insurers accountable and help accelerate the shift away from fossil fuels.**
