Introducing *FILTERS*

Samantha is your typical “IT girl”. Her world revolves around TikTok dances, selfies and the latest trends. She’s got a big online following and even bigger dreams.

But riding high on 'likes' cannot last forever and cracks start to form in her once unbreakable friendship group. Truths get digitally twisted and an explicit image of Samantha gets exposed online in a way she cannot control. Will Samantha attempt to repair the damage to her online persona, or will she sit back helplessly and watch everything around her unravel? When filters can no longer mask the mess, Samantha and her friends are forced to face the issues in their own lives and deal with the consequences.

Written by Marcel White & Anisha Raine

Preventative education for secondary schools addressing social media, sexualised content, AI, cyberbullying and consent.

Our beloved Marcel, who suddenly passed away in June 2021, wrote the first draft of this script during COVID. We are grateful and honoured to have Anisha Raine - his friend and sister in Christ - carry on his legacy.

He was passionate about this work and we can hear his encouragement in our hearts as we move forward with this production and workshop.
