GOOD NEWS

- **ZERO EMISSION FLIGHTS**
UK based Hybrid Air Vehicles plans to roll out short haul flights using passenger airships by 2025. Climate Change travellers are all of a flutter!! Emissions will be cut by 90%.
- **A TURNING POINT IN HISTORY**
A Dutch court has ordered mega giant Shell to slash emissions by 45% by 2030. This landmark court case could have global implications.
- **A LITTLE THING BUT....actions can bring about change.**
Since Londis took over the main petrol station in Falmouth at Dracaena Crossroads, it sells as usual all the main newspapers, but stopped selling our two local newspapers. Why??
I wrote a letter to the manager re this: both local papers now being stocked again. A very small community action with positive results.

FOR REFLECTION AND PRAYER

- **UGANDA**
is losing 55,000 acres annually due to deforestation resulting in drought, declining farm yields, flooding and landslides.
- **GAZA**
Due to bombardments, Gaza has lost many vital buildings including its only Covid 19 testing station.
- **UK 400,000**
It was reported this week that 400,000 people volunteered to help others in the Covid lockdowns. BUT.... 400,000 people/families are this week in distress as now landlords can again evict tenants for rent arrears.
