## Hello CTC

November is here, bringing with it progress and opportunity. On 28th November BBC Radio 4 is airing a documentary on Eternal Wall, as part of The Untold series. We caught up with producer Becca Bryers who explores why the story of Eternal Wall makes a great piece of radio.

We also chatted with Matt Evans, Site Manager of the access road, to hear his unique perspective on the project - spoiler alert, they're doing an incredible job.

Thanks for being an integral part of the journey, we can't **make hope visible** without you. Keep *sharing your stories* and consider giving if you're able - all donations are still being matched up to £4m!

With all our love,

The Eternal Wall team
