

save the date

Canadian company Planetary has devised a ground-breaking solution to climate change that is being considered for deployment in Cornwall. Two public events are planned: one in Hayle on March 1, and one in Truro on March 2. These will enable stakeholders and community leaders to find out more and offer feedback in exchange for a cocktail party and a drink. Book your seat now using the QR codes, or get in touch via the details below.

Hayle - Wednesday
1st March 7 - 8.30pm
